UPLIFT PROJECT 2026 COMPLETION

Revised update – October 2026

Dear Valued Partner,

As Raffles Seychelles approaches the completion of its enhancement journey, we recognise that you and your clients may have questions around timing and the guest experience during these final stages. We remain committed to sharing clear updates and ensuring every stay is delivered with the utmost care, comfort and attention throughout.

A Renewed Vision of Timeless Island Luxury

The resort uplift marks an exciting new chapter for Raffles Seychelles, with our reimagined restaurants and public areas now open and welcoming guests. Thoughtfully designed to elevate the journey while preserving the character of our island setting, the transformation brings together a refreshed arrival experience, sculptural artistry, handcrafted details and renewed spaces for dining, discovery and connection.

This also marks the beginning of a new culinary chapter for our guests. Makase introduces a more intimate Japanese dining experience, while Curieuse Restaurant returns with a renewed setting and a vibrant Pan-Asian identity. By day, Sunla offers relaxed poolside dining, before the space transforms after sunset into Soluna, a dedicated evening concept with its own atmosphere, menu and rhythm.

Beyond dining, the refreshed Reception and Arrivals experience, Concierge, Art Gallery, Retail Boutique and Takamaka Pavilion are now open. The latter offers a relaxed setting for recreation, with board games, table tennis and other light activities designed for easy moments together.

Together, these newly unveiled spaces signal the beginning of a renewed guest experience at Raffles Seychelles, bringing greater character, variety and a fresh sense of discovery to every stay.
